

UNITED STATES DEPARTMENT OF AGRICULTURE NATIONAL AGRICULTURAL STATISTICS SERVICE

Tennessee Crop Weather

Tennessee Field Office • PO Box 41505 • Nashville, TN 37204 • (615) 781-5300 • www.nass.usda.gov

Issued Monday 3:00 PM; November 27, 2017

For the Week Ending November 26, 2017

EXCELLENT WEATHER FOR HARVEST, PLANTING

Weather conditions last week were ideal for row crop harvest and small grain planting. Producers took full advantage of the weather to finish corn harvest. Both soybean and cotton harvest are nearly complete and wheat planting is almost finished. Row crop producers report favorable yields. Cattle producers are starting to feed hay as pastures get short. There were 6.2 days suitable for field work, up from 4.5 the previous week. Topsoil moisture was 1 percent very short, 8 percent short, 87 percent adequate, and 4 percent surplus. Subsoil moisture was 1 percent very short, 7 percent short, 87 percent adequate and 5 percent surplus.

CROP PROGRESS					CONDITION					
Стор	This Week	Last Week	2016	5 Year Avg.	Item	Very Poor	Poor	Fair	Good	Excellent
	Percent									
Soybeans – Harvested	91	83	100	94	Winter Wheat	0	1	21	60	18
Cotton - Harvested	91	81	100	90	Pasture	1	13	38	42	6
Winter Wheat – Planted	91	85	94	N/A						
Winter Wheat - Emerged	79	69	75	N/A						

County Agent Comments

The farmers in Fayette County are about to complete harvest for the year. We still have some cotton and beans to go. Wheat has been planted and is just about all emerged. No rains last week and conditions are near perfect for harvesting.

Jeff Via, Fayette County

Soybean harvest is all but completed with a few remaining scattered fields yet to be cut. Cotton harvest is nearing the finish line. Some additional wheat acres have been planted with the favorable soil and weather conditions.

Jeff Lannom, Weakley County

Bean harvest about wrapped up.

Kevin Rose, Giles County

We have had some good weather for harvesting and planting and have completed both. Pastures are getting short and a lot of producers are feeding hay. We had some July planted beans go over 40 bushels for the first time ever.

Larry Moorehead, Moore County

Field work is winding down. Still a few acres of soybeans and corn to harvest but for the most part finished.

Most soybean producers were very pleased with yields this year. Cattle look good. Hay is being fed but folks report adequate stocks.

A. Ruth Correll, Wilson County
